

	Inquiry of supplier evaluation (Manufacturing)	Edit: Date; SKS-f3100008/00
---	---	-----------------------------------

In the Name of God

In order to perform qualitative appraisals and determine qualifications, South Kaveh Steel Company intends to identify, rank, and grade all the qualified companies that possess valid qualification certificates, and the necessary knowledge, experience, management capability, and financial ability.

Therefore, all the qualified companies are invited to perform the following steps to express their readiness and awareness of all the evaluation and appraisal criteria and methods:

Completing the evaluation questionnaire, and submitting it along with all the evaluation documents to the following address:

The Suppliers Evaluation Unit, Purchasing Unit Management, Deputy of Purchasing, South Kaveh Steel Company, Persian Gulf Special Economic Zone, the 13th km of Shahid Rajaei Highway, Bandarabas , Hormozgan Province, Iran.

WWW.SKSCO.IR

Of course, expressing readiness only triggers the qualitative evaluation of the applicants, and it will not create any special rights for these applicants.

Thank you

Purchasing Unit Management

4. Work Experience

Please provide the list of your main contracts in the related field of activity during the last three years (along with the necessary documents)

Details of the contract	Employer	Start date	End date

5. Satisfaction with previous performance

The satisfaction letters from previous employers with regard to previous jobs (along with necessary documents)

Details of letter of appreciation, letter of encouragement, letter of satisfaction,	date of receipt	name of employer	document number

6. Distance

6-1 Name of the city (employer)

6-2 Distance between the manufacturer's workshop and the city center (employer): ... (in km)

7. Financial Capacity

7-1 Ability to provide bank guarantee: yes no

7-2 Amount of guarantee: (in Rial)

(Fields of activities for the manufacturers of equipment and spare parts)

Code	Field of activity
11	Manufacturing casting parts for ordinary steels;
12	Manufacturing casting parts for alloy, heat resistant, and friction resistant steels;
13	Manufacturing casting parts for cast iron;
14	Manufacturing casting parts for colored metals;
15	Manufacturing parts for light and medium machining;
16	Manufacturing parts for heavy machining;
17	Manufacturing simple and medium metal parts (assemblage);
18	Manufacturing complex metal parts (assemblage);
19	Manufacturing non-metal (rubber, plastic, Teflon) parts;
20	Manufacturing various light rollers;
21	Manufacturing various heavy rollers;
22	Manufacturing various simple gears;
23	Manufacturing various complex and special gears;
24	Manufacturing simple gearboxes;
25	Manufacturing complex and special gearboxes;
26	Manufacturing pneumatic jacks;
27	Manufacturing hydraulic jacks;
28	Manufacturing various heat exchangers, condensers, recuperators, radiators;
29	Manufacturing drums and rolls for conveyor belts;
30	Manufacturing crystals, fans, and accessories;
31	Manufacturing cooling panels for steelmaking furnaces;
32	Manufacturing working pallets and pellet-making center parts;
33	Manufacturing various special bolts and screws;
34	Manufacturing special mechanical equipment for various units in an integrated manner;
35	Manufacturing pumps and related parts;
36	Manufacturing compressors and related parts;
37	Manufacturing slag and melt ladles;
38	Manufacturing electrical components and equipment and instrumentation;
39	Manufacturing Babbitt bearings and Babbitt casting of components;
40	Manufacturing ordinary couplings;
41	Manufacturing special couplings;
42	Manufacturing crane components;
43	Manufacturing cooling tower components;
44	Manufacturing gas injection components;
45	Manufacturing gear motors;
46	Manufacturing industrial springs;
47	Manufacturing industrial taps;
48	Manufacturing hydraulic hoses;
49	Manufacturing water seals (gaskets, O-rings, and so on);
50	Manufacturing heat pipes;

---	--	-----------------------------------

51	Manufacturing flexible connectors (accordion folding);
52	Manufacturing rotational connectors;
53	Manufacturing industrial brake pads;
54	Manufacturing industrial filters;
55	Manufacturing industrial rails;
56	Manufacturing gas torches and related ceramic components;
57	Manufacturing transformers;
58	Manufacturing resin and hard wood components;
59	Manufacturing industrial coal and graphite;
60	Surface engineering (heat operations, metal spray, hard coating, and so on).
